

6. The Subcommittee of the Senate Rules Committee which is considering amendments to Congressional Committee procedures, particularly in the investigative field, plans extended hearings into the Fall, and intends to take testimony from Committee Chairmen and their counsel who have run major investigations from Teapot Dome to the present. Thus, they will hear McCarthy and Cohn, Brewster and Bill Rogers, Kefauver and Halley, and possibly ex-Senator Wheeler and Judge Pecora. They will then write a report for submission in January 1955. I met Mr. Berkovitch, Counsel to the Subcommittee, and there does not appear to be any involvement with CIA.
